Contact: Amy Maxey, Director of Marketing & Business Development

At ACS, we have spent decades learning which solutions work and implementing those solutions in complex, real-world justice environments. Our case management system, Contexte, and the innovative ACS Juror Management System have been licensed by more than 2,000 courts around the world to enhance the delivery of justice. As a Fortune 500 company with experience implementing a wide range of technologies, ACS can deliver innovative solutions for our clients. Solutions include justice revenue services, integrated justice systems, court performance measurement systems, electronic filing, interactive voice response, audio/visual technologies, document management systems, imaging and microfilm conversion, violation processing, and systems integration, as well as IT and business process public/private partnerships. Visit us in booth 301 and see how ACS can help you connect technologies, agencies, and people to make technology work for you.

New Westminster, BC V3M 5Y4

Phone: (604) 521-2199 / Fax: (604) 521-2990

Website: www.courthouse-technologies.comContact: Scott Kerr skerr@courthouse-technologies.com

We're revolutionizing jury management. Courthouse Technologies is a company built on a vision for the future of jury management. We believe that jury management systems have not kept pace with developments in new technology. Remarkable advancements in technologies for the Internet, for telephony, for document imaging and mobile devices, to name a few, can be applied to optimize and revolutionize the administration of the jury process.

Courthouse Technologies has 40 years of combined experience developing solutions for the jury management process. This experience has taught us that superior jury management systems are not crafted by computer programmers, but by dedicated technology professionals who are specialists in the jury management field. Our team of developers has built more jury management systems than any other vendor in the market. And because we have applied expertise not just with our own applications, but with a variety of commercially available jury management systems, there is no one better qualified to provide you with the best jury management products, technical support and consulting services available.

GC Services Limited Partnership

412

6330 Gulfton Drive
Houston, TX 77081
Phone: (949) 609-0232
E-mail : scottcole@gcserv.com
Website: <http://www.gcserv.com>
Contact: Scott Cole, Managing Vice President

When GC Services first opened its doors for business in October 1957, we were just one of a few small firms helping companies manage their collection and customer care needs. In the nearly five decades since, our continued commitment to providing superior service to our clients and their customers has led to tremendous growth. Today, GC Services is one of the largest and most respected receivables management companies in the nation, handling more than 1 million customer contacts per day in 19 languages, with 32 offices throughout the United States, Canada and the Caribbean. We are particularly proud of our court collections experience and our flagship court management division.

GC Services has formulated partnerships with more than 150 judicial districts nationwide. Our programs include the management of (1) unadjudicated traffic cases, (2) adjudicated traffic, misdemeanor, felony, victim restitution, indigent defense, jury fines, (3) Family law cases/child support delinquencies, and (4) delinquent parking cases. GC Services has managed more than \$3 billion in court-related cases, typically recovering more than 30% of the delinquent cases referred to us by our court clients.

HDR Architecture, Inc.

501

17111 Preston Rd, Suite 300
Dallas, Texas
Phone: (972) 960-4000 / FAX (972) 960-4015
Website: www.hdrinc.com
Contact: Michael Brenchley, AIA

HDR understands that a courthouse is a unique building, which presents special operational challenges to the Design Team. We are sensitive to the complex relationships that exist among judges, court staff, prosecutors, attorneys, defendants, witnesses, family members, jurors, other representatives with the larger justice system, and external stakeholders.

Over the past 20 years, HDR has been associated with the planning and design or evaluation of more than 60 court projects, representing more than 600 courtrooms, and over 11 million square feet of court and related spaces. Our projects range from the \$115 million Mecklenburg County Courthouse to the \$3 million Judiciary Training Center for the State of Maryland. HDR is a leading civic design firm recognized for being a trusted client advocate, creative technical problem solver and innovative design leader.

Heery International**400**

Software is just the beginning. You will find that Justice Systems' quality services and training to be the standard by which others are judged. Supported by a team of experts having been clerks, judges, attorneys and administrators, our clients find that no question or issue is too difficult. World class products combined with dedicated professionals give you the peace of mind to move you into the future.

Regardless of whether you choose a client server or browser environment, Justice Systems has *The Right Solutions for the Justice System.*

LexisNexis**312**

9443 Springboro Pike

Miamisburg, OH 45342

Phone (937) 865-7064 / Fax (937) 847-3097

Website: www.LexisNexis.com/fileandserve

Contact: Tina Yarnell, Relationship Events Specialist

LexisNexis® File & Serve, an online service, gives courts and law firms greater control over case file management. With advanced Internet technology, XML-based integration, and judicial-grade infrastructure, File & Serve provides improved access to case documents and streamlines the intake process.

For courts, online clerk review and judicial action improve operations, while the online document repository enhances access as well as care, custody, and control. Law firms benefit from improved document access, automated case monitoring, and elimination of the physical delivery of paper.

Since 1991, the LexisNexis File & Serve team has been a leader in providing e-filing solutions. There are sixty-one thousand judges, clerks, attorneys, and others who are registered to use the system. In addition, 17 million documents are filed and/or served annually into 1,000,000 online cases.

The MAXIMUS Justice Solutions Division was founded in 1984 to provide state-of-the-art Case Management Systems. The Justice Solutions Division is located in North Canton, Ohio with over 135 staff members. This division has established itself as the premier provider of Case Management Systems to America's Courts. Some of our recent awards include: The city of Houston; State of Alaska; State of Nevada; State of Massachusetts; the District of Columbia; Chester, Pennsylvania; and Wayne County, Michigan. This division provides and delivers the CourtView[®], JailView[™], RecordView[®], and JuryView[™] modules. The CourtView[®] module is a functionality-rich integrated justice system that includes the case management and financial processes necessary to support court divisions (such as Criminal, Civil, Family, Traffic, and Probate.) Additional CourtView[®] modules support Prosecutors, Public Defenders, Probation, and Juvenile Detention Centers.

Metatomix, Inc.

215

950 Winter Street, Suite 4400
Waltham, MA 02451
Phone: (781) 907-6700 / FAX (781) 907-6701
Website: www.metatomix.com
Contact: Tim Perkins

Founded in 2000, Metatomix is an innovative software company that has delivered the nation's first statewide criminal information system to support the Jessica Lunsford Act. The system provides real-time, automatic background checks on arrestees triggered by their booking. This system is one of four modules within the game-changing, Metatomix Integrated Justice Solution which includes: Jessica Lunsford Act First Appearance, Judicial Inquiry System, Criminal Investigation, and Judicial Data Exchange.

Our market-proven solutions, which leverage our customers' universe of applications, data, and services, have been improving and strengthening our country's war on crime in both public safety and financial institutions since 2001. Our customers include: Florida State Courts; Palm Beach County, Florida Law Enforcement; and judicial and law enforcement agencies in Georgia's Crisp and Henry Counties.

Multi Business Systems

210

2350 E. Gettysburg, Suite A
Fresno, CA 3726
Phone: (800) 776-0057
E-mail: mkooiman@multibusinesssystems.com
Website: www.multibusinesssystems.com

Multi Business Systems has been helping courts across the nation save money and get more efficient with the Outsourcing of the Jury Summons and Traffic Courtesy Notices. We work with the individual courts to meet the needs they have in design, size and quantities to reduce costs in postage and processing while maintaining a professional look on all forms. We are processing for courts across the nation to save them time and money in the printing and mailing of summons and notices. We are currently working on an NCOA link program to be able to correct addresses of the potential jurors and then electronically correct the addresses in the system. No more manually correcting all of the return mail.

Multi Business Systems also provides many different items of Jury Appreciation Week. The one week to show appreciation to the people that give up their time to serve, we provide what the court wants at a cost that is affordable to just remind them that they are important.

Municipal Services Bureau (MSB)**308**

6505 Airport Blvd., Suite 100

Austin, TX 78752

Phone: (800) 568-7004, ext. 3223

E-mail: jramsey@ncsc.dni.usWebsite: www.ncsconline.org

Contact: John Ramsey

NCSC serves the state courts as they improve judicial administration. NCSC provides research, information, education, and consulting services focused on helping courts plan, make decisions, and implement improvements that save time and money while ensuring judicial administration that supports fair and impartial decision making.

NCSC is an independent, nonprofit court improvement organization founded by the state chief justices at the urging of Chief Justice of the Supreme Court Warren E. Burger. He envisioned NCSC as a clearinghouse for research information and comparative data to support improvement in judicial administration in the state courts. Over twenty years ago, the Institute for Court Management merged with NCSC, adding an educational curriculum especially designed for court managers. In the early 1990s, an information services was created to strengthen the rule of law in countries around the world.

NCSC is located in Williamsburg, Virginia with program offices in Denver, Colorado and in Arlington, Virginia.

Phone: (800) 221-2730 / FAX (727) 328-1505
Website: www.softworkssolutions.com
Contact: Andy Latimer

Our Vision

Softworks Solutions, Inc. is dedicated to providing quality consulting and support services to courts and governmental agencies. Our goal is to dramatically reduce the cost, time and labor associated with current day-to-day workflow bottlenecks throughout the legal system and to increase operational efficiencies for management and staff.

Our Product

JCalendar is a web-based judicial workflow management system that connects the various stakeholders in the legal community through one integrated internet application. JCalendar provides the courthouse the ability to administer schedules for both internal resources (judges, magistrates etc.) while exposing their schedules to registered users (such as attorneys) via the internet. This technology connects various users (from attorneys, court reporting firms, audio visual support companies, court interpreters and the court) and allows everyone involved in the judicial system the freedom to schedule at anytime 24/7 based on their specific needs and requirements. JCalendar reduces the number of calls fielded by judicial assistants (JA) and gives both JA and Judge the tools to quickly retrieve and respond to scheduling needs.

JC Calendar integrates to digital court reporting systems for scheduling and audio retrieval, web services for data retrieval, various case management systems, digital signage solutions, video encoding solutions, video conferencing systems and document management systems.

In addition to scheduling and workflow management, JCalendar now offers a full e-filing and e-courier solution known as Jcourier and a complete solution for conflict counsel registry, JCalendar CCR. It is through these innovations that Softworks continues to prove its in-depth understanding of court workflow and court management concerns and issues.

Spillis Candela DMJM**409**

800 Douglas Entrance

VitalChek Network, Inc.

405

6 Cadillac Drive, Suite 400

Brentwood, TN 37027

Phone: (615) 372-6821 / FAX (866) 693-1920

Website: www.paymentchek.com

Contact: Robin Yost

VitalChek is a leading provider of customized payment solutions for government agencies. We currently provide PaymentChek, our unique bundle of payment services, to more than 600 government agencies, including courts, departments of health and vital statistics, and public utilities.

PaymentChek *makes it easy* for consumers to make payments to government agencies like yours. They can **pay their bills securely** over the phone either live or automated, and on on-line, all the time—so your office is “open” to receive payments even when it's “closed.” We also offer debit at the counter.

PaymentChek streamlines the payment process between consumers and government agencies—and we do it all at **no cost** to your agency! Our goal is to provide your office with easy-to-use payment options and improved collection of funds. Stop by our booth and find out why “It Doesn’t Get Any Easier Than This”.

Williams Sound Corp.**404**

10321 West 70th Street
Eden Prairie, MN 55344
Phone: (800) 328-6190
Website: www.williamssound.com

Williams Sound has been manufacturing high quality hearing assistance and language interpretation systems for over 30 years. The SoundPlus Courtroom Listening Systems ensure that everyone in the courtroom can hear and understand the judge's message - the first time, every time. Jurors hear evidence clearly and prosecutors, defense attorneys and judges project their message with greater comfort and ease. Infrared technology confines the audio transmission within the room, ensuring the privacy of your proceedings. Easy to setup and use the system can be installed permanently or used as a portable system. The SoundPlus system fulfills Title II ADA (Americans with Disabilities Act) requirements for the hard of hearing. These systems can multi-task and accommodate your language interpretation equipment needs as well-from one to four languages. Williams Sound systems carry a five year warranty. Visit us at Booth #404 or online at www.williamssound.com for more information on our extensive line of Infrared and FM products for the courtroom.

Wiznet, Inc.**502**

360 N. Congress Avenue
Delray Beach, FL 33445
Phone: (800) 228-6081
Website: www.wiznet.com
Contact: Robert Schott, rschott@wiznet.com

Wiznet's E-File & Serve and Document Access Program (DAP) provide a customizable, easy-to-use e-filing solution for today's Court. E-File & Serve allows the Court to maximize resources through operational efficiency and reduction of paper and enables attorneys to submit filings electronically to the Court, 24 hours a day, via the Internet. With E-File & Serve, attorneys can access documents on-line and immediately E-Serve other parties in the case. Through our Document Access Program (DAP) attorneys also have online access to all live cases. Documents submitted through E-File & Serve can be directly integrated into existing Case Management Programs and transferred into DAP. E-File & Serve and DAP are the most advanced, easy to use applications available in the marketplace today.
