

NACM 2007 MIDYEAR CONFERENCE

COMPANY DESCRIPTIONS – ALPHABETICAL ORDER

ACS Government Systems, Inc.

www.acs-inc.com/gs

505

At ACS, we have spent decades learning which solutions work and implementing those solutions in complex, real-world justice environments. Our case management system, Contexte, and the innovative ACS Juror Management System have been licensed by more than 2,000 courts around the world to enhance the delivery of justice. As a Fortune 500 company with experience implementing a wide range of technologies, ACS can deliver innovative solutions for our clients. Solutions include justice revenue services, integrated justice systems, court performance measurement systems, electronic filing, interactive voice response, audio/visual technologies, document management systems, imaging and microfilm conversion, violation processing, and systems integration, as well as IT and business process public/private partnerships. Visit us and see how ACS can help you connect technologies, agencies, and people to make technology work for you.

AllianceOne Receivables Management, Inc.

www.allianceoneinc.com

106

AllianceOne provides tailored debt collection services to hundreds of court clients nationwide at the local, state and federal echelons. Our Government division assists courts in the enforcement of justice while maintaining the highest levels of confidentiality and customer service. We focus on developing unique solutions for courts, including: pre-collection services, time payment monitoring, driver's license restoration programs and flexible data communication. Our agency customizes programs to meld with every court's individual business model. AllianceOne provides dedicated contract teams that work with a client from contract implementation to completion. Our motto, *"Complaints, you don't want them, AllianceOne doesn't get them!"*

AmCad, LLC

www.amcad.com

405

AmCad is a full service company offering court and public records solutions. AmCad's integrated CASE MANAGEMENT SYSTEM (AiCMS) is a .NET person based (centric) web based solution based on national court standards for data collection and sharing including Justice XML Web standards. AiCMS Integrated Solution provides consistency across widely varying business units within the Justice community. AiCMS Integrated Justice Solution Incorporates: Case Progress Docket; Event Management; Master Calendaring; Case Receipting; Financial Processing; Full General Ledger; Check Writing and Reconciliation; Systems Utilities; Systems Administration; User Defined Tables; Provides Image-Enable Case Documents; and Full In-Court Processing Functionality; as well as Electronic Filing.

CourtCall

www.courtcall.com

100

CourtCall created the turn-key telephonic court appearance industry in 1995. Lawyers hoping to help reduce the cost of litigation know that clients save hundreds of dollars each time their lawyers are not required to sit in traffic or jump on a plane for a brief appearance. CourtCall was created because there was a compelling need to make routine, non-evidentiary pre-trial appearances more cost effective for clients and more manageable for busy attorneys. Over 900,000 times in over 1,600 courtrooms across the country, Courtcall has enabled attorneys to seamlessly simulate an in-person court appearance with no discernible disruption in the business of the Court, all at no cost to the Court. For more information please call 1-888-882-6878 ext 266.

FileTrail www.filetrail.com **103**

FileTrail® eliminates the lost case file and automates other manual processes related to handling case files. As the leader in RFID File Tracking, FileTrail innovated Passive Tracking™ technology that automatically records the locations of case files as they move among clerks, courtrooms, chambers, and other locations. The cost of RFID tags has dropped by 50% and read ranges increased to over 10 feet. FileTrail solutions integrate easily with case management systems, allowing staff to easily locate files. See us at our website or visit our RFID Lab, the only RFID Lab in the world focused on RFID applications in the courts and office environments.

FTR, Limited www.fortherecord.com **105**

FTR Limited is the leading global supplier of rich media asset management systems for courts, hearing rooms, public meeting and the law enforcement venues. Its products are used in over 15,000 recording venues in more than 40 countries. FTR sells its products through a global network of value-added resellers and systems integrators. Contact us at 1-877-650-0958 or visit us on the web to learn more about FTR and our products.

GC Services www.gcserv.com **503**

GC Services first opened its doors for business in 1957 in Houston, Texas. GC Services is one of the most respected receivables management providers in the United States. We have been managing delinquent public sector debt for more than 20 years. Our success in managing court related receivables enabled us to create our Court Collection Division over 16 years ago. Over the years we have forged partnerships with more than 150 judicial districts nationwide, where we have developed collection programs for more than 10 different court related debt categories. GC Services has managed more than \$4 billion in court-related cases, typically recovering more than 30 – 40% of the cases referred.

HDR Architecture, Inc. www.hdrinc.com/civic **102**

HDR understands that a courthouse is a unique building, which presents special operational challenges to the Design Team. We are sensitive to the complex relationships that exist among judges, court staff, prosecutors, attorneys, defendants, witnesses, family members, jurors, other representatives with the larger justice system, and external stakeholders. Over the past 20 years, HDR has been associated with the planning and design or evaluation of more than 60 court projects, representing more than 600 courtrooms, and over 11 million square feet of court and related spaces. Our projects range from the \$115 million Mecklenburg County Courthouse to the \$3 million Judiciary Training Center for the State of Maryland. HDR is a leading civic design firm recognized for being a trusted client advocate, creative technical problem solver and innovative design leader.

Infax, Inc. www.infax.com **104**

Based in Atlanta, Georgia, Infax, Inc. is one of the U.S. pioneers in design, manufacture and maintenance of information and way-finding display systems. For over 36 years, Infax has helped airports, mass transit stations, hospitals, office complexes and courthouses display and disseminate information throughout their facilities. Using proven display products and technologies, Infax's **docketCall**®, the electronic docket display system, interfaces with court case and calendar management systems to provide real-time display of court dockets as well as other courthouse information. To find out more, visit our website or call us at (770) 209-9925.

INTRESYS – TurboCourtwww.intresys.com www.turbocourt.com**202**

Servicing self-represented litigants is one of the most challenging and time-consuming responsibilities of the Clerk. After waiting in lines that crowd court hallways, litigants aggressively seek advice and help from clerks in selecting and filling out forms, consuming vast amounts of clerk time. Next, clerks then have to solve issues created by documents that are not filled out properly. Finally, clerks have to manually re-enter information from the documents spending significant amounts of time. Wouldn't you like to:

- § Save clerks' time
- § Receive legible, accurate and completed forms
- § Reduce the frustration by staff and filers
- § Reduce cost of changing forms
- § Ensure proper forms filled out
- § e-File the forms

The Clerks in Florida, New York and California already see more than 40% of filers use **TurboCourt™**.

ISD Corporationwww.isd-corp.com**306**

ISD is a recognized leader in providing innovative judicial software that simplifies, automates and streamlines the entire legal process, allowing justice agencies to process more cases with limited staff resources, readily share information with other justice agencies through XML-based interfaces, reduce cost, accelerate time-to-value, minimize business risk and to respond to increased community expectations for increased access to services and information. For NACM Midyear 2007, we will be featuring our Resource Projection Model (RPM) solution. Please drop by booth #306 to learn how this proven solution can help you justify the need for additional staff and respond to increased workloads and community expectations with limited resources.

Jefferson Audio Video Systemswww.javs.com**409**

JAVS is the preeminent provider of audio and video court documentation systems designed to fit into any courtroom environment. Today, JAVS systems are providing the official record of the court in more than 1,000 courtrooms in 30 states. Microphones, cameras and evidence presentation equipment are combined with JAVS intelligent audio video switching and control system to record and log court proceedings.

Jury Systems Incorporatedwww.jurysystems.com**403**

Jury Systems Incorporated is the **industry leader** in jury management solutions. Over **350 Courts** have joined our family nationwide. Our focused use of the **latest technologies**, coupled with our **business expertise**, provides the most cost effective, efficient and flexible methods for managing your entire jury operation. Best of all, no matter what kinds of growth, procedure changes, or new requirements you encounter, **we are always there for you** – helping you meet your needs by providing our knowledge, tools and concern.

Justice Systemswww.justicesystems.com**204**

Justice Systems has provided the most comprehensive integrated case management systems on the market for twenty five years. With courts and prosecutors all across the nation relying on Justice Systems, it is not only important for us to design quality justice related products, but also to take the time to do it right! FullCourt, FullCase and FullCourt Enterprise continue to satisfy the needs of both small and large justice environments. Regardless of whether you choose a client server or browser environment, Justice Systems has *The Right Solutions for the Justice System*. For more information: 505-883-3987

Liberty Recording www.libertyrecording.com **101**

Liberty Recording offers a complete solution for courtrooms wanting to update their audio recording systems. The Liberty Court Recorder is a digital court recorder that may be used to capture both the audio and video associated with courtroom proceedings. Liberty offers a range of recording hardware that come in easy-to-use touch screen implementations and all-in-one PCs that make recording easy. Liberty has a network of dealers who can provide local support right across the country. Please contact Liberty Recording for all of your courtroom recording needs."

MAXIMUS www.maximus.com/justice **107**

MAXIMUS Justice Solutions Division develops, implements, and supports solutions that assist the justice community in managing operations and sharing information to support the delivery of justice and enhance public safety. Our solutions include complex integrated justice initiatives that provide criminal data repositories and facilitate the exchange of critical data among agencies involved in administering the judicial process and safeguarding the public. We also provide product-centric solutions such as our JusticeMAX case management, JuryMAX jury management, and JailMAX jail management systems that serve as the information backbone of courts and corrections organizations. From city and county to statewide and country-wide organizations, our justice solutions have been selected by entities of all sizes serving populations of 40,000 to more than 6,000,000 citizens. For more information, please contact Sheila Stith at sheilastith@maximus.com or 1-800-406-433 ext 203.

Metatomix Integrated Justice Solutions www.metatomix.com **407**

For state and local governments who want law enforcement and justice related agencies to more effectively share information, Metatomix provides commercial off the shelf (COTS) Integrated Justice solutions to support better public safety decisions, streamline processes and dramatically lower the cost of administering justice. Metatomix products intelligently automate JIEM[®] (Justice Information Exchange Model) exchanges of information, provide single views of subjects across multiple agency datasources from a single screen and signon, and perform advanced correlation of information to support investigations, sentencing, and corrections activities.

Multi Business Systems www.multibusinesssystems.com **304**

Multi Business Systems provides print and mail services for courts across the nation. We can receive files from any software; verify totals, image and mail within 24 hours. Potential jurors have the summons in an average of 72 hours from when the file is sent. Multi Business Systems can also correct the potential juror addresses sent against the postal data base so the summons go to the correct addresses, the first time. The corrected addresses are returned to you so you data bases can corrected manually or electronically so your juror file is Postal correct.

Municipal Services Bureau (MSB) www.muniserv.com **208**

Founded in 1991, Municipal Services Bureau (MSB) offers outsourced collections, payment processing and call center services to court systems nationwide. We empower talented employees with advanced technology, data management tools and leading edge business practices to exceed the expectations of our clients. MSB currently works with nearly 450 courts in 19 states and is licensed to collect throughout the United States. MSB is an active member of the AMERICAN COLLECTORS ASSOCIATION (ACA) and an associate member of the NATIONAL ASSOCIATION FOR COURT MANAGEMENT (NACM). By implementing MSB's services you can achieve the following goals: justice served, increased revenue, expanded staff and decreased liability.

RevQ**www.revq.com****200**

RevQ is a software and consulting firm focused on collections and compliance for courts and other government agencies across the United States. RevQ brings leadership and expertise in revenue recovery for the government sector, and our staff expertise includes over 90 years of collective experience in improving collections for our government client base. Some of our government clients have been with us for over 20 years. With this extensive background partnering with our client base and our knowledge of current collection issues, RevQ is uniquely positioned to impact your collections quickly and expertly with professional consultation and “best practices” automation.

Sound Choice Assistive Listening, Inc.**www.assistivelisting.net****206**

Sound Choice provides consultation, design, manufacturing and sales of assistive technologies for the hearing impaired for compliance with the Americans with Disabilities Act. The patented SC-186K product line features a high-powered, portable, self-contained infrared transmitting system. A built-in microphone, onboard sound processing electronics and a coverage range of up to 2500 square feet provides an easy-to-use solution in a small portable package. The sidebar mute switch makes the system uniquely suited to court and government use. Sound Choice is also a dealer for most other major assistive listening product lines.

TELE-COURT, Inc.**www.tele-court.com****302**

At no cost to your Court, Tele-Court can instantly implement a telephonic appearance system that offers far more than simple teleconferencing. Tele-Court's online reservation and call management system provides unparalleled ease of use and control to both the Court and counsel. Tele-Court's system can also dramatically reduce the cost of telephonic appearance services to the participating attorneys. Tele-Court is not a VOIP connection, but a carrier grade solution that offers crystal clear conference connections. Administrators and Judges should look over our website and contact our President, Mark Dunbar, an attorney who understands the unique requirements of Court and counsel, at (800) 924-5680.

Wiznet, Inc.**www.wiznet.com****300**

Wiznet's E-File & Serve and Document Access Program (DAP) provide a customizable, easy-to-use e-filing solution for today's Court. E-File & Serve allows the Court to maximize resources through operational efficiency and reduction of paper and enables attorneys to submit filings electronically to the Court, 24 hours a day, via the Internet. With E-File & Serve, attorneys can access documents on-line and immediately E-Serve other parties in the case. Through our Document Access Program (DAP) attorneys also have online access to all live cases. Documents submitted through E-File & Serve can be directly integrated into existing Case Management Programs and transferred into DAP. E-File & Serve and DAP are the most advanced, easy to use applications available in the marketplace today.
