AiCMS™ is designed to integrate with existing infrastructure and applications, which results in consistency across court processes.

American Institute of Architectswww.aia.org**#410**

“Since 1857, the AIA has represented the professional interests of America's architects. As AIA members, over 83,000 licensed architects, emerging professionals, and allied partners express their commitment to excellence in design and livability in our nation's buildings and communities. Members adhere to a code of ethics and professional conduct that assures the client, the public, and colleagues of an AIA-member architect's dedication to the highest standards in professional practice. The Academy of Architecture for Justice (AAJ), a Knowledge Community of the AIA, promotes and fosters the exchange of information and knowledge between members, professional organizations, and the public for high-quality planning, design, and delivery of justice architecture. The architect members work in private and public organizations of all sizes, and many are expert in areas ranging from courtroom technology and advanced security systems to specific design requirements for juvenile detention centers. Together, AAJ members are committed to improving the justice system's quality and effectiveness by increasing the level of excellence in justice facilities.”

Aptitude Solutionswww.apitudesolutions.com**#602**

Aptitude Solutions is the leading provider of innovative technology solutions for county governments, including court case management systems, county land record systems, workflow management systems, document management systems, and tax deed filing systems. Aptitude Solutions Court Case Management Solution, ShowCase™, had its beginning from our close relationships with county governments. ShowCase is architected from the ground up with the latest imaging and .NET architecture and technologies that provide clients with not only the best current technology, but also with a foundation that is scalable and extensible for many years of changing court needs. Both users and IT staff will appreciate the ease of use, increased productivity, and low maintenance of the robust ShowCase solution. ShowCase provides an end-to-end solution for all court related departments. Utilizing system integration with external agencies, ShowCase greatly reduces data entry and eliminates redundant data input. Showcase's numerous workflow tools, document imaging solution, financial data capture, forms generation, and intuitive interface provide the most robust and easy to use system on the market today. California Administrative Office of the Courts www.courtinfo.ca.gov

#105

The Judicial Council and the Administrative Office of the Courts

Chaired by Chief Justice Ronald M. George, the Judicial Council of California provides policy direction to the courts and advises the Governor and the Legislature on court practice, procedure, and administration. The council performs its constitutional and other functions with the support of its staff agency, the Administrative Office of the Courts (AOC). The AOC offers a full range of administrative support to California's judicial branch which comprises the state appellate and trial courts, the Habeas Corpus Resource Center, and the Judicial Council. This support includes legal research and advice; court project development and implementation; legislative analysis and advocacy; judicial and staff education; human resources services; information systems development; facilities operations; and accounting, business services, and budget advocacy, development, and management.

CGI

www.cgi.com

#213

CGI is a global information technology and business process services provider with more than 27,000 professionals in over 100 offices. CGI provides Enterprise Content Management and Case Management solutions to state and local government justice and court agencies. Subsequently governments have access to proven solutions that electronically manage their case information, documents and case files. Our solutions provide instant access to information, creating more efficient processes and a greater focus on service, rather than record keeping. CGI's in-depth government expertise result in the reduced costs of day-to-day operations—eliminating storage and paper costs—and improved staff productivity.

The Court Brothers

www.thecourtbrothers.com

#215

The Court Brothers is a reminder call service specifically designed for courts around the country, to Lower Your Failure to Appear rate, help your court Get Paid Faster and Get More Done. We have the technological resources to call every defendant on every case, for a fraction of the cost of dealing with warrants when a defendant fails to appear or pay. The Court Brothers can also help courts get paid faster by reminding defendants of fines and payments before they are due, encouraging immediate payment and resolving cases more efficiently.

CourtAudio

www.courtaudio.com

#508

Join us at the CourtAudio booth for a presentation of AudioTrax™ and the new and exciting voice recognition and transcription system. AudioTrax is a digital audio recording and voice-to-text recognition system used to record, annotate, play back, and archive court proceedings. The advanced audio recording techniques in AudioTrax enable the reporter to record on a local hard drive, CD drive, and remote/LAN-based hard drive simultaneously. Additionally, AudioTrax's simple-to-use interface enables the reporter to monitor the audio channels, playback/read-back while recording, and annotating the record. We are a leading technology provider to the legal community. For the past twenty-five years, our products have been consistently the yardstick by which others have been measured. Our mission is to create technologically advanced products that empower our clients to better manage their workflow, streamline operations, increase revenue generation opportunities, and save precious resources.

CourtCall

www.courtcall.com

#301

CourtCall created the turn-key telephonic court appearance industry in 1995. Lawyers hoping to help reduce the cost of litigation know that clients save hundreds, if not thousands, of dollars each time their lawyers are not required to sit in traffic or jump on a plane for a brief appearance. CourtCall was created because there was a compelling need to make routine, non-evidentiary pre-trial appearances more cost effective for clients and more manageable for busy attorneys. Over 900,000 times in over 1,500 courtrooms across the country, CourtCall has enabled attorneys to seamlessly simulate an in-person court appearance with no discernible disruption in the business of the Court, all at no cost to the Court. For more information please call 1-888-882-6878.

Courthouse Technologies, Ltd**www.courthouse-technologies.com #603**

We're revolutionizing jury management. Our experience has taught us that superior jury management systems are not crafted by computer programmers, but by dedicated technology professionals who are specialists in the jury management field. Our team of developers has built more jury management systems than any other vendor in the market. And because we have applied expertise not just with our own applications, but with a variety of commercially available jury management systems, there is no one better qualified to provide you with the best jury management products, technical support and consulting services available.

CourtSmart Digital Systems**www.courtsmart.com****#202**

FACT is an ad hoc division of NACM.

National Center for State Courts www.ncsconline.org #310

The National Center for State Courts, founded in 1971, provides research, information, education, and consulting services to state courts and courts around the world. For more than 35 years, the NCSC has helped courts plan, make decisions, and implement improvements that save time and money while ensuring judicial administration that supports fair and impartial decision making. NCSC is an independent, nonprofit court improvement organization founded by the state chief justices at the urging of Chief Justice of the Supreme Court Warren E. Burger. Chief Justice Burger envisioned NCSC as a clearinghouse for research information and comparative data to support improvement in judicial administration in the state courts. More than 20 years ago, the Institute for Court Management (ICM) merged with NCSC, adding an educational curriculum designed for court managers. In the early 1990s, an international services division was created to strengthen the rule of law in countries around the world. NCSC is headquartered in Williamsburg, Virginia with program offices in Denver, Colorado and Arlington, Virginia.

National Safety Council www.nsc.org #514

The National Safety Council's mission is to educate and influence people to prevent accidental injury and death; through workplace, defensive driving and emergency care training, products and services that keep you safe on the job, on the road, and at home.

nCourt www.ncourt.com #103

nCourt is a national court and government technology services company. Our services streamline information processing and reduce physical traffic and call volume into the court and shrink your docket. The program saves private citizens time previously spent dealing with the traffic ticket payment process, and empowers courts to accept credit card payments over the Internet to pay fines.

StopTech, Ltd.www.stoptechltd.com**#303**

Founded in 1993, StopTech, Ltd. is the distributor of the Centurion Wireless Security System and the Centurion Scout. The Centurion is the fastest wireless duress alarm system on the market, transmitting unique pinpointed messages without delay by way of two-way radios, pagers, and phones (landline or mobile). The Centurion allows personnel to move about the premises for additional protection, yet respond instantly and effectively when needed. The Centurion Scout is a portable, wireless communication security system that monitors high-risk situations, while facilitating immediate response in the event of an alarm. StopTech, Ltd. is committed to providing its customers; the most reliable and value-added public safety and law enforcement solutions, incomparable, dedicated customer service and sales support teams, and leading-edge public safety and law enforcement technologies. By maintaining our focus on customer satisfaction and leading-edge technologies, we are changing the way customers think about their safety and law enforcement systems.

Sungard www.availabiltiy.sungard.com #415
SunGard's Information Availability Solutions help provide uninterrupted access to mission-critical data and systems. Our focus is on IT infrastructure, helping ensure systems are always on, or recovering them. SunGard's facilities provide a safe place to locate your hardware and protect your applications, data and network. SunGard pioneered the disaster recovery industry. Seeing firsthand what works and what doesn't, SunGard uses this knowledge to deliver a 100% recovery success rate for our customers. Unlike software or hardware providers with a narrow "point solution" focus, SunGard implements solutions that are focused on keeping your organization operational. SunGard is platform independent, our recommendations are offered with absolute objectivity. Visit www.availabiltiy.sungard.com, or email sas.governmentrfq.@sungard.com

Sustain www.sustain.net #113
Sustain's new, browser-based eCourt case processing system has been developed based on over 25 years of experience in providing successful DOS- and Windows-based case management systems to large and small courts in ten states and three countries. Backed by the Daily Journal Corporation, a legal industry leader since 1888, Sustain's eCourt uses the Java2 Enterprise Edition (J2EE) platform for the flexibility and scalability required in today's dynamic justice environment. The design of eCourt features a "single code base" to provide a user-friendly, highly configurable system that can be readily adapted by non-technical personnel to support a wide range of case types and local requirements without expensive customization. eCourt is "database agnostic" and supports leading relational databases. eCourt's configurable workflow management automates and streamlines court processes; work queues with supervisory dashboards help the court actively manage and report the health of workflow processes.

ThomsonWest www.west.thomson.com #109
West, a Thomson Reuters business, delivers a powerful advantage to its customers by providing the highest-quality legal, regulatory and business information and innovative technology tools to manage it. In addition to being the home of Westlaw, West annually publishes over 66 million books, 500+ CD-ROM libraries, and multiple software solutions. Some of these solutions include: West km, LiveNote, and BriefTools. To enable customers to focus on the successful and efficient practice of law, West leverages its knowledge of the legal market with solutions for client development and legal office automation, provided by other affiliated Thomson Reuters businesses. Visit us at www.west.thomson.com

Tybera www.tybera.com #411
Tybera continues to lead the market in eFiling for judicial courts and government agencies. Our customers include Delaware, Utah, Orange and Clay County Florida, The Supreme Court of Nevada, Washoe County Nevada, Montgomery County, Ohio, and the Eastern Caribbean Courts of St. Lucia. We continue to bring superior eFiling technology to many courts of various jurisdictions across the country. Much of the appeal for Tybera's eFlex comes from its ability to tightly integrate with case and document management systems which reduces or eliminates manual data entry. Clerks can configure eFlex to automatically receive filings without review, or queue up filings that do require special review. Licensing eFlex helps ensure that courts receive a customized solution that fits their needs.

Tyler Technologies www.tyler-tsg.com #506
Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to make local government more accessible to the public, more responsive to needs of citizens, and more efficient. Tyler's client base includes more than 6,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. *Forbes* Magazine named Tyler one of the "200 Best Small Companies" in America in 2004.
