Departures from Generally Accepted Accounting Principles (GAAP)

For the annual audit, National Association for Court Management (NACM) prepares financial statements and disclosures in compliance with generally accepted accounting principles (GAAP). For interim reporting, management has determined that the additional cost to prepare fully GAAP compliant interim financial reports outweighs the benefits and prefers to use the savings to support programmatic and operational expenditures. As a result, certain GAAP requirements are not incorporated in the interim financial statements. This is an acceptable and common practice used for the purpose of interim financial reporting for nonprofit organizations. The following lists the significant departures from GAAP for this set of interim financial statements:

1. Substantially all disclosures have been omitted.
2. The Statement of Cash Flows has been omitted.
3. Conference and membership dues revenues for the current year are recognized when received. Conference expenses for the current year are recognized when paid.
4. The Statement of Activities does not show functional expenses and we are not presenting a statement a functional expense. The Statement of Activities also does not show restricted net assets presented separately.

If the above departures from U.S. GAAP were included in the financial statements, they might influence the user’s conclusions about the Organization’s financial position, changes in net assets, and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.
