CourtCall in
action!

Benefits of CourtCall Remote Appearance Platform

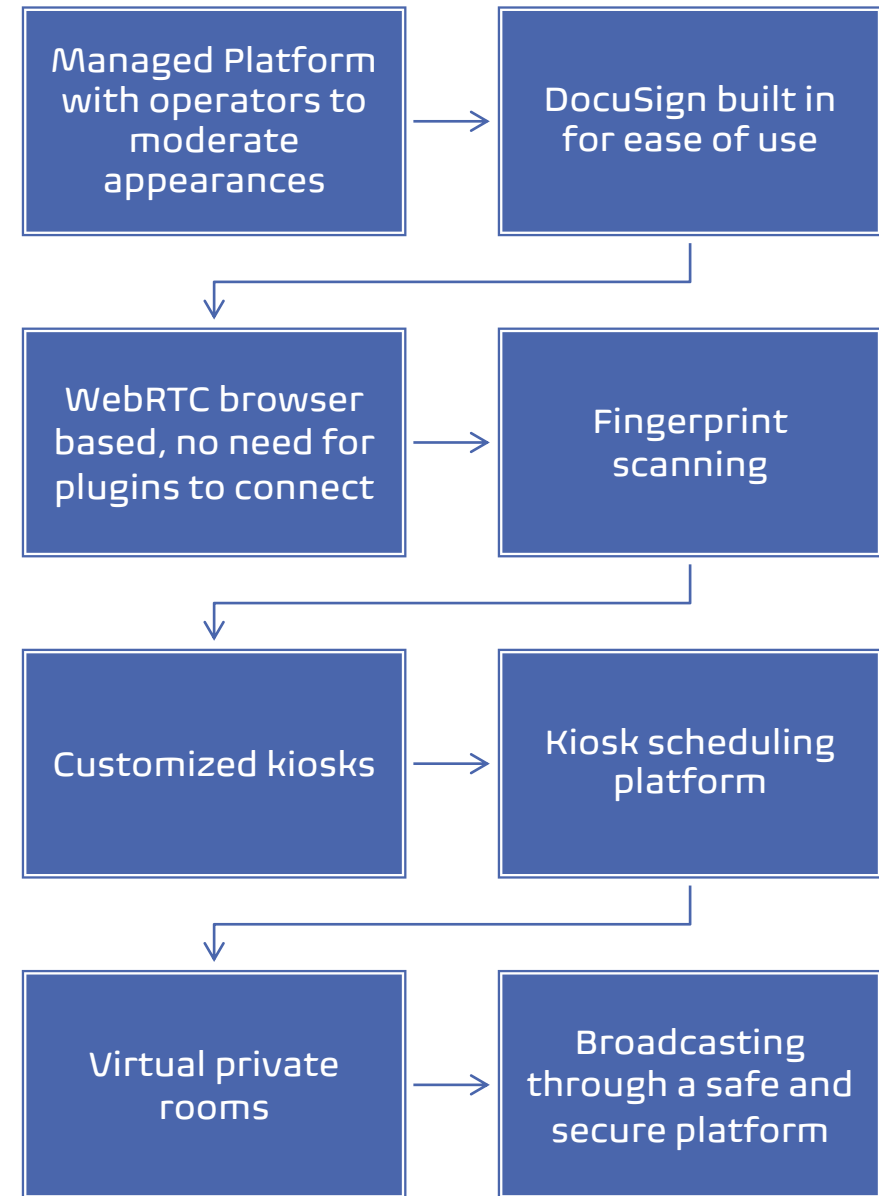

- Reduces the cost of litigation
- Less crowded courtrooms and increased security
- More efficient case flow
- Increases public access
- Connects all relevant parties, regardless of their locations
- More efficient courtroom logistics; eliminates work for busy Court Staff
- “Privacy” and “Open Court” services available
 - Privacy: Established for Judges who wish to conduct their CourtCall proceedings privately, in chambers. On the Privacy program, a moderator remains on the call for its duration and serves as a “virtual” clerk for the Judge, bringing into the call only those with whom the Judge wishes to speak.
 - Open Court: Program which simulates the actual Courtroom experience where all who are present hear the proceedings.

Benefits of CourtCall Video Arraignment

- Enhances the safety and security of courtroom staff and the public by reducing the transport of in-custody defendants.
- Protects due process rights of in-custody defendants through accurate and clear video and audio without disruption to court proceedings.
- Permits confidential attorney/client communications through multi-channels on the platform. (virtual private rooms)
- DocuSign between parties without leaving the CourtCall platform
- Reduces in-custody transportation costs for brief arraignments via video links between courtrooms, jails and secure correctional facilities.
- Kiosk compatibility
- Simplifies court proceedings and improves administrative efficiency.
- Its Green! Reduces fuel usage and other transportation and environmental impacts.
- Fingerprint scanning to document (or other uses)
