1. Welcome and Introductions

2. NACM Virtual Education Program and Expo Update

Jeffrey reviewed NACM's current virtual education program and asked for feedback. The group has really enjoyed the program thus far and felt that breaking it up over several weeks made it easier for people to attend more sessions.

3. State Approaches to Conferences During the Pandemic

Jeffrey then asked for all of the different states to give some overview of how their states were approaching their state conferences. Many states have just cancelled their conferences entire, some are just having virtual board meetings, and a handful were trying the virtual conference approach. One state has even gone so far to declare their 2021 fall conference to go virtual. Everyone shared similar frustrations about trying to recreate their conferences while also dealing with stressful times in courthouses.

4. State Approaches to Court Proceedings During the Pandemic

Due to a lack of time, this item was not discussed.

5. Future Topics

Jeffrey asked that if anyone had any specific topics they thought would be helpful to discuss at a future meeting, to send it to him.

6. Adjourn
